

OSE Encounter Activities – Centipede, Giant (d100)

1	<i>A profane and eldritch toxin: You can now be Turned as Undead</i>	51	Holing up in a bathing Elf's Chain Armor
2	<i>Befuddling venom: As the Spell Confusion</i>	52	Infesting a sack that containing rotting rations/several pitons
3	<i>Crawling in unseemly places: bite inflicts Disease (as Spell)</i>	53	Injecting a too curious Fire Beetle with their venom
4	<i>Develop an Allergy to Iron, subsides on a strict vegetarian diet</i>	54	Inside a decaying log strewn across your path, waiting to strike
5	<i>Drowsy/Droopy: As Spell Sleep, but with remarkably vivid dreams</i>	55	Lashing out flutily at a fearless Giant Shrew
6	<i>Heartbeat slows, breathing shallows: mistaken for Dead by most</i>	56	Licking their eggs to protect them from Fungi
7	<i>Irrational hydrophobia: Affected by Fear (as Spell) around water</i>	57	Mandibles twitching as two rivals size each other up
8	<i>Magic Jar with Centipede, better hurry up and bite before they get away</i>	58	Navigating a scree of broken glass with ease
9	<i>Neurotoxin alters brain in weird way: Replace a known language</i>	59	Nibbling on the foreleg of a Giant Spider
10	<i>Ovipositor: 2 days you see 'em writhing under skin, in 8 they burst forth</i>	60	Optimistically tasting a dead Cave Locust
11	<i>Paralyzes vocal cords first, slowly clouds vision: Mute/Blind in a week</i>	61	Patiently hiding in a dark cavity that holds an important Lever
12	<i>Potentially beneficial choking hazard: Breath only Water</i>	62	Piercing the stiff chitin of a Scorpion with ease
13	<i>Prized by Orcs: Adrenaline rush acts as Haste Spell, must rest afterward</i>	63	Preying on former mate to nourish the development of young
14	<i>Remarkably painless, but random limb is paralyzed</i>	64	Pricking hairs on necks as it slithers out the mouth of a corpse
15	<i>Rooted to the spot, as if you've forgotten which foot comes first to walk</i>	65	Protecting a large, bulbous egg mass by carrying it under their tail
16	<i>Searing pain courses throughout your body from the wound (as Blight)</i>	66	Quickly scrambling away from a Giant Toad
17	<i>Taste buds dull, food tastes of ashes, drink is bitter grapefruit juice</i>	67	Racing after a Giant Springtail
18	<i>Tremors/spasms: Drop items held in right hand when a 13 is rolled</i>	68	Rapid staccato clicking as spindly feet meet stone
19	<i>Used to mark and locate prey: Bite sheds Light as Spell for 3 days</i>	69	Rattling a chain, being used as a ladder
20	<i>Wound festers and leaks foul smelling puss until treated</i>	70	Rolling around in a pool of their venom to kill off parasites
21	Ambling noisily over a pile of leaves and twigs	71	Rustling through leaf litter in search of large worms and grubs
22	Amphibiously lurking in a small, muddy puddle	72	Scratching faintly on a glass jar containing a very frightened Sprite
23	Aposematically colored: advertising it's toxicity in bright red and blue	73	Scurrying underfoot, to the yelps of patrolling Orcs
24	Blending in rather well with discarded coils of rotting rope	74	Secreting smelly defensive chemicals: Like sour milk and gasoline
25	Burrowing into a patch of soil, kicking up a surprising amount of dirt	75	Seeking water to avoid drying out completely and dying
26	Chewing a large, dead Lizard meticulously	76	Seemingly spring-loaded as it swiftly strikes at a shadow
27	Chittering to scare off a hungry Giant Rat	77	Seizing a resting Stirge from its precarious perch
28	Chomping down on a Frog/Toad: it kicks a few times then is still	78	Sheltering within a very finely made Helmet
29	Clambering across a flagstone floor, on the prowl	79	Sinuating confidently in the open: Most predators know better
30	Clinging to the underside of a doorway arch	80	Skittering in the cushions of a comfortable-looking chair
31	Coiled within a footlocker's moldering fabrics	81	Snaking around the unsuspecting ankle of a Dwarf
32	Covering the intriguing writings of an open grimoire	82	Sneaking up on a warm, snoring Goblin
33	Creeping along, where walls meet the floor, stealthily and unexposed	83	Somehow found its way into a now screaming Acolytes' hood
34	Curled up, inhabiting a bucket beneath a layer of sand	84	Stalking their preferred prey: Venomous Snakes
35	Dashing suddenly out from under a bench	85	Startling a Mule, now stomping furiously and braying loudly
36	Depredating a nest of squirmy pink Giant Rat Pups	86	Stuck to the underside of a trapdoor and easily agitated
37	Devouring a Starling after stumbling across their nest	87	Suspended from the ceiling, snatching Bats on the wing
38	Dragging a smaller Centipede in its mandibles	88	Swiftly crawling from hiding place to hiding place
39	Dripping blackish green venom onto a discarded silk handkerchief	89	This littoral species enjoys eating Barnacles
40	Dropping down from the ceiling onto a table laden with dishes	90	Tightly curled around a dead Rabbit, feeding
41	Dwelling within a curious Skull, their home sweet home	91	Trained Hunting Centipedes, a Pixie innovation
42	Effortless climbing a sheer surface	92	Underneath a conspicuously loose stone
43	Encircling a door handle to survey for prey	93	Viciously biting it's Kobold trainer, fortunately immune
44	Falling from their perch on the side of bookshelf to scurry behind it	94	Weaving through the wrappings of an unbothered Mummy
45	Feeding on an unlucky and very hairy Tarantula	95	Worming through keyhole (large chest): hind parts visible
46	Finding a terrifying place to sleep in an unattended Boot	96	Worrying a group of Lizard Men, trying to find a place to camp
47	Flicking sensitive antennae after a change in temperature	97	Wounding a Medium, mistook this for his nearly identical Familiar
48	Gnawing on a Mouse with massive mandibles	98	Wreathed around a clumsily gilt bust of a forgotten Philosopher
49	Guarding clutch of Eggs: rare example of invertebrate maternity instinct	99	Wriggling on the end of a Kobold's spear
50	Helically slithering down a column: A spiral with too many legs	100	Zigzagging across a table, laden with Alchemist equipment
